

Kotlin 2021 Premier Online Event Quizzes

Take part in Quizzes to get the full Kotlin 2021 Premier Online Event experience – and for the chance to win some nice Kotlin branded swag! And, well, you'll also be able to check how well you know Kotlin.

What are Quizzes?

A series of 6 short questionnaires that you can use to check what you've learned from the talks. You can complete as many as you like. The more questions you answer correctly, the higher your chances are of winning some exclusive swag!

When and where can I solve the Quizzes?

As soon as each talk is finished, a link to the quiz for that talk will appear on the event website and in the description on YouTube. Just click the link and the quiz will open in a new tab.

Is there a deadline to submit my answers?

You'll have 48 hours after the last talk is published – until November 8, 16.00 CET.

How will the winners be determined?

We are keeping things simple this time. Take as many quizzes as you want. Each correct answer will give you 1 point. The top thirty scorers will get prizes. We suggest you pay attention as some questions can contain more than one correct answer.

Be sure to provide your email address when you submit your answers so we can contact you and send you your prizes. Please use the same email address for all the quizzes you do as your total score will be based on all six questionnaires.

You can participate in as many of the quizzes as you want to increase your points and chances of winning memorable swag from the Kotlin 2021 Premier Online Event.

Good luck!
